

## PICROSS GAME GRIDS FOR USE WITH LME PICROSS ALEXA SKILLS: 10 X 10

To play, enable one of Love My Echo's Picross Alexa skills. In the game, Alexa will direct you to fill individual squares by their number in the grid. You can mark the puzzle collection and number at the top to keep track of those you've already solved. You can also play on graph paper where you've marked a 10x10 grid with the numbers 1 -100 yourself.
